

IHS MARITIME & TRADE

AISLive Premium

Real-time ship movements

AISLive Premium has the added dimension of including satellite data for the complete coverage of ship movements. Our 24/7 service provides you with greater visibility of your fleets' deep sea and offshore movements by using combined data..

Greater visibility of your fleets' deep sea and offshore movements

Latest version enhancements:

- 25% increase in AIS terrestrial network coverage
- 18% growth in satellite AIS in terms of vessels seen
- 11% growth in hourly positions recorded
- Enhanced ship track with animation. Ability to select date range and draught threshold
- Increased ship track history
- 197 filters including: All ships - destination port, destination country, ETA, draught, speed and hazardous cargo, last seen Verified ships - DWT, GT , flag, operator, technical manager, last port of call and last country of call
- Export the WatchList into Excel
- Dynamic real time intelligence reporting
- Measuring tool to approximate distances on the map
- Ability to add notes to a ship in the WatchList

User Interface Updates

- Set ship symbols color to indicate ship type or speed/recency
- Tanker and dry cargo berths shown on map
- Clearly identify high/low areas of traffic density
- Improved process for adding ships to zones

These enhancements are included in all versions of AISLive.

AISLive Premium enables you to gain a competitive edge by increasing:

- **Operational Efficiency**

Follow your fleets' global movements including deep sea coverage to keep track of their routes, speeds and arrival times.

- **Domain Awareness**

Gain further awareness of all ships movements in your domain, providing greater visibility of ships sailing in your waters.

- **Identifying Movement Trends and New Business Opportunities**

Using the deep sea movements get a clear picture of global movements to identify movement trends and competitor movements.

- **Risk Analysis Capabilities**

Identify and watch ships that could be a security risk in your waters. Using the bespoke zones and alerts around targeted areas, you ensure a ship does not contravene its agreed trading zone.
