Access to current, accurate production forecasts and analysis is the critical first step in understanding where the light vehicle market is going and where your opportunities and challenges lie. But detailed insight on bodystyle (vehicle silhouette and number of apertures) from the IHS Automotive Light Vehicle Production Bodystyle Module is your secret weapon for successful business planning, supply-chain and logistics management, and competitive analysis.

The benefits of detailed forecasts and analysis
IHS Automotive Light Vehicle Production Bodystyle Module takes model forecasts to the next level, providing suppliers, OEMs, and logistics companies with planning, management, and competitive advantages, that enable them to:

**Suppliers**
- More accurately forecast bodystyle-dependent components
- Evaluate vehicle size/“top hat” volume trends for technology and product strategy requirements

**OEMs**
- Assess competitive bodystyle/“top hat” utilization
- Gauge competitive vehicle platform utilization/breadth
- Logistics providers
- Size revenue and capacity forecasts for containers
- Forecast volumes for total revenue and capacity
IHS Automotive forecasts nearly 30 bodystyles, which include the vehicle silhouette combined with the number of apertures/doors. Our Light Vehicle Production Bodystyle Module includes all the coverage of our Light Vehicle Production Forecast – which spans more than 50 countries, 600 plants, and 2,300 models over a 7-year forecast horizon—plus:

- Vehicle bodystyle
- Vehicle/bodystyle mnemonic
- Start-of-production for vehicle/bodystyle combination per plant
- End-of-production for vehicle/bodystyle combination per plant
- Extended 12-year forecast horizon (upon request)

The Bodystyle Module is updated monthly. Data are delivered in monthly buckets for history, current year and two forecast years; quarterly for the rest of the base horizon buckets.

**Specialized, in-depth coverage**

**Get a complete picture of the industry**

In addition to the Light Vehicle Production Bodystyle Module, IHS Automotive offers a full range of other optional, add-on modules and a separate 25-year Automotive Long-Term Planning and Scenarios product that expand the depth and detail of our base Light Vehicle Production Forecast.
