

IHS Markit™

Industrial Coating Reports Suite

The Industrial Coating Reports Suite Includes:

For additional details, click on the report title below:

- CEH Alkyd/Polyester Surface Coatings
- CEH Epichlorohydrin
- CEH Epoxy Resins
- CEH Epoxy Surface Coatings
- CEH Urethane Surface Coatings

- Understand business implications of environmental legislation on global coatings industry
- Gain insights into various chemistries and technologies used in coatings production
- Get deeper knowledge of coating industry growth regional and globally
- Develop understanding of factors driving growth of coatings industry

The Industrial Coatings industry will continue to experience significant changes over the next few years due to several factors:

- a) Industry consolidation, especially in mature regions;
- b) Increasingly stringent environmental regulations driving development of new coatings technologies; and
- c) Increases in the standards of living in developing regions, leading to increased consumption of goods.

IHS Markit helps the Industrial Coatings producers and customers understand market drivers, industry dynamics, trends in current and future product technologies and key players by providing a comprehensive overview that supports strategic decision making.

IHS Markit is a world leader in critical information, analytics and expertise. Publishing continuously since 1950, our chemical solutions provide timely information and market analysis of the international chemical industry and its major products. The Industrial Coating Reports Suite is available as a subscription with inquiry privileges.

CEH (Chemical Economics Handbook) reports include:

- Global summary; regional coverage
- Consumption and forecasts by end use application
- Producers with annual capacities and plant sites
- Prices and price trends
- Production figures and trends
- Trade – imports and exports
