

Report No. 39

POLYSTYRENE

by WING SIEN FONG

June, 1968

A private report by the

PROCESS ECONOMICS PROGRAM

STANFORD RESEARCH INSTITUTE

MENLO PARK, CALIFORNIA

CONTENTS

1	INTRODUCTION	1
2	SUMMARY	3
3	INDUSTRY STATUS	19
4	CHEMISTRY	35
	Introduction	35
	Free-Radical Polymerization	36
	Initiation	36
	Propagation	40
	Termination	41
	Kinetic Equations	46
	Inhibition and Retardation	50
	Gel Effect	65
	Effect of Oxygen	66
	Effect of Pressure	68
	Degradation	68
	Branching	77
	Structure	79
	Mass Polymerization	79
	Suspension Polymerization	85
	Emulsion Polymerization	85
	Solution Polymerization	95
	Polymerization by Irradiation	95
	Graft Copolymerization	107
	Ionic Polymerization	116
	General Chemistry	116
	Metallic Sodium-Catalyzed Polymerization	120
5	MANUFACTURING PROCESSES	123
	Introduction	123
	Monomer Handling	129
	Quality Control	130
6	POLYSTYRENE BY MASS POLYMERIZATION	131
	Review of Processes	131
	Equipment	131
	Material Used in Construction	136
	Processing Conditions and Compositions	137

CONTENTS

6	(Continued)	147
	Process Description	147
	General Purpose Polymer	148
	High Impact Polymer	148
	Expandable Polymer	155
	Process Discussion	158
	Cost Estimates	177
7	POLYSTYRENE BY SUSPENSION POLYMERIZATION	177
	Review of Processes	185
	Process Description	185
	General Purpose Polymer	186
	High Impact Polymer	187
	Expandable Polymer	188
	Demineralized Water System	197
	Process Discussion	200
	Cost Estimates	219
8	POLYSTYRENE BY EMULSION POLYMERIZATION	219
	Review of Processes	229
	Process Description	229
	General Purpose Polymer	230
	High Impact Polymer	241
	Process Discussion	245
	Cost Estimates	259
9	POLYSTYRENE BY SOLUTION POLYMERIZATION	259
	Review of Processes	265
	Process Description	271
	Process Discussion	274
	Cost Estimates	285
10	POLYSTYRENE FOAMS	285
	Introduction	287
	Expanding Mechanism	289
	Molding of Expandable Polystyrene Beads	289
	Review of Processes	295
	Process Description	299
	Process Discussion	300
	Cost Estimates	300

CONTENTS

10	(Continued)	
	Extrusion of Expandable Beads	306
	Review of Processes	306
	Process Description	307
	Process Discussion	311
	Cost Estimates	312
	Direct-Injection Extrusion of General Purpose Polystyrene .	319
	Review of Processes	319
	Process Description	320
	Process Discussion	321
	Cost Estimates	322
11	GENERAL PROPERTIES OF POLYSTYRENE	329
12	FACTORS AFFECTING THE PROPERTIES OF POLYSTYRENE	335
	Polystyrene	335
	Mechanical Properties	335
	Molecular Weight and Its Distribution	335
	Molecular Chain Structure	338
	Orientation	339
	Temperature	339
	Annealing	340
	Rubber-Modified	341
	Residues, Impurities, and Additives	342
	Fabrication Methods	342
	Viscosity and Rheological Properties	343
	Molecular Weight and Its Distribution	343
	Branching	347
	Solvent and Polymer Concentration	347
	Temperature	347
	Flow Behavior	351
	Thermal Properties	351
	Vapor Pressure	354
	Electrical Properties	359
	Flammability	359
	Electrostatic Charge	359
	Weatherability	363
	Solubility and Diffusivity of Gases	364
	Polystyrene Foam	364

CONTENTS

APPENDIX A	DESIGN AND COST BASIS	367
APPENDIX B	RAW MATERIAL SPECIFICATIONS	373
APPENDIX C	PROPERTIES OF RAW MATERIALS	375
CITED REFERENCES	377
SUPPLEMENTARY REFERENCES	451

ILLUSTRATIONS

3.1	Polystyrene Production Data and Projection	25
6.1	Polystyrene by Mass Polymerization	151
6.2	Effect of Styrene Price on Production Cost of General Purpose Polymer	169
6.3	Effect of Styrene and Rubber Prices and Rubber Content on Production Cost of High Impact Polymer	170
6.4	Effect of Blowing Agent Content and Prices of Styrene and Blowing Agent on Production Cost of Expandable Polymer	171
6.5	Effect of Utilities, Fixed Capital-Related and Labor-Related Costs on Production Cost	172
6.6	Effect of Polymerization Cycle Time on Production Cost	173
6.7	Effect of Operating Rate and Plant Capacity on Production Cost	174
7.1	Polystyrene by Suspension Polymerization	189
7.2	Effect of Styrene Price on Production Cost of General Purpose Polymer	211
7.3	Effect of Styrene and Rubber Prices and Rubber Content on Production Cost of High Impact Polymer	212
7.4	Effect of Styrene, Pentane, and Polyvinylpyrrolidone Prices on Production Cost of Expandable Polystyrene	213
7.5	Effect of Utilities, Fixed Capital-Related, and Labor-Related Costs on Production Cost	214
7.6	Effect of Amount of Water Used in Polymerization Recipe on Production Cost	215
7.7	Effect of Polymerization Batch Time on Production Cost	216
7.8	Effect of Operating Rate and Plant Capacity on Production Cost	217
8.1	Polystyrene by Emulsion Polymerization	233
8.2	Effect of Styrene Price on Production Cost of General Purpose Polymer	251
8.3	Effect of Styrene and Rubber Prices and Rubber Content on Production Cost of High Impact Polymer	252
8.4	Effect of Utilities, Fixed Capital-Related, and Labor-Related Costs on Production Cost	253

ILLUSTRATIONS

8.5	Effect of Polymerization Cycle Time on Production Cost . .	254
8.6	Effect of Amount of Water Used in Recipe on Production Cost	255
8.7	Effect of Operating Rate and Plant Capacity on Production Cost	256
9.1	Polystyrene by Solution Polymerization	267
9.2	Effect of Styrene Price on Production Cost	280
9.3	Effect of Quantity of Solvent Used and Solvent Loss on Production Cost	281
9.4	Effect of Polymerization Cycle Time on Production Cost . .	282
9.5	Effect of Utilities, Fixed Capital-Related, and Labor-Related Costs on Production Cost	283
9.6	Effect of Operating Rate and Plant Capacity on Production Cost	284
10.1	Molding of Expandable Polystyrene Beads	297
10.2	Molding of Expandable Polystyrene Beads Effect of Plant Capacity and Operating Level on Production Cost	305
10.3	Extrusion of Expandable Polystyrene Beads	309
10.4	Extrusion of Expandable Polystyrene Beads Effect of Plant Capacity and Operating Level on Production Cost	318
10.5	Direct-Injection Extrusion of General Purpose Polystyrene Effect of Plant Capacity and Operating Level on Production Cost	328

TABLES

2.1	Comparison of Costs of Various Processes for Manufacturing Polystyrene	7
2.2	Comparison of Costs of Various Processes for Foaming Polystyrene	12
3.1	Typical Commercial Classifications of Polystyrene and Their Applications	21
3.2	Consumption of Polystyrene in United States	23
3.3	Consumption of Styrene Polymer and Copolymer in the United States	24
3.4	End-Use Forecast for Polystyrene Foam	27
3.5	Producers and Plant Capacity for Polystyrene United States	28
3.6	Trade Names for Polystyrene and Related Products	30
3.7	Production and Consumption of Polystyrene for 1966 in Countries Other Than the United States	32
3.8	Producers and Plant Capacities	33
4.1	Some Publications on Catalyzed Polymerization of Styrene	51
4.2	Some Publications on the Inhibition and Retardation of Styrene Polymerization	59
4.3	Some Publications on the Effect of Oxygen on Styrene Polymerization	67
4.4	Some Publications on the Effect of Pressure on Styrene Polymerization	69
4.5	Some Publications on the Degradation Reactions of Polystyrene	71
4.6	Some Publications on the Mass Polymerization of Styrene	81
4.7	Some Publications on the Emulsion Polymerization of Styrene	89
4.8	Some Publications on the Solution Polymerization of Styrene	97
4.9	Some Publications on Chain-Transfer Reactions and Chain-Modifier Additions in the Solution Polymerization of Styrene	101

TABLES

4.10	Some Publications on the Photopolymerization of Styrene .	105
4.11	Some Publications on Gamma and X-Ray Initiated Styrene Polymerization	109
5.1	Some Patents on Impact Polystyrene by Polyblend	126
5.2	Some Patents on Expandable Polystyrene by Steeping or Mixing of Polystyrene with Blowing Agents	127
6.1	Some Patented Compositions and Processing Conditions for Mass Polymerization of Styrene	139
6.2	Some Catalyst Systems Reported for Mass Polymerization of Styrene	143
6.3	Polystyrene by Mass Polymerization Major Process Equipment and Utilities Summary	150
6.4	Polystyrene by Mass Polymerization Stream Flows	153
6.5	Polystyrene by Mass Polymerization Process Unit and Utilities Investment	163
6.6	Polystyrene by Mass Polymerization Total Capital Investment	165
6.7	Polystyrene by Mass Polymerization Production Costs	167
6.8	Effect of Change in Product Mix on Production Cost	175
7.1	Some Patents on the Suspension Stabilizing System for Suspension Polymerization of Styrene	179
7.2	Some Patents on Catalysts for Suspension Polymerization of Styrene	181
7.3	Some Patents on Composition of Matter for Suspension Polymerization of Styrene	183
7.4	Polystyrene by Suspension Polymerization Major Process Equipment and Utilities Summary	189
7.5	Polystyrene by Suspension Polymerization Stream Flows	193
7.6	Polystyrene by Suspension Polymerization Process Unit and Utilities Investment	205

TABLES

7.7	Polystyrene by Suspension Polymerization Total Capital Investment	207
7.8	Polystyrene by Suspension Polymerization Production Costs	209
7.9	Effect of Change in Product Mix on Production Cost	218
8.1	Some Patents on the Emulsifying Agent for Emulsion Polymerization of Styrene	223
8.2	Some Patents on Catalyst Systems for Emulsion Polymerization of Styrene	225
8.3	Some Patents on the Composition of Matter for Emulsion Polymerization of Styrene	227
8.4	Polystyrene by Emulsion Polymerization Major Process Equipment and Utilities Summary	232
8.5	Polystyrene by Emulsion Polymerization Stream Flows	237
8.6	Polystyrene by Emulsion Polymerization Process Unit and Utilities Investment	247
8.7	Polystyrene by Emulsion Polymerization Total Capital Investment	248
8.8	Polystyrene by Emulsion Polymerization Production Costs	249
8.9	Effect of Change in Product Mix on Production Cost	257
9.1	Some Patents on Catalyst Systems in Solution Polymerization of Styrene	263
9.2	Polystyrene by Solution Polymerization Major Process Equipment and Utilities Summary	267
9.3	Polystyrene by Solution Polymerization Stream Flows	269
9.4	Polystyrene by Solution Polymerization Process Unit and Utilities Investment	277
9.5	Polystyrene by Solution Polymerization Total Capital Investment	278
9.6	Polystyrene by Solution Polymerization Production Costs	279

TABLES

10.1	Molding of Expandable Polystyrene Beads Major Process Equipment and Utilities Summary	297
10.2	Molding of Expandable Polystyrene Beads Process Unit and Utilities Investment	302
10.3	Molding of Expandable Polystyrene Beads Total Capital Investment	303
10.4	Molding of Expandable Polystyrene Beads Production Costs	304
10.5	Some Nucleating Additives for the Extrusion of Polystyrene Foams	308
10.6	Extrusion of Expandable Polystyrene Beads Major Process Equipment and Utilities Summary	309
10.7	Extrusion of Expandable Polystyrene Beads Process Unit and Utilities Investment	314
10.8	Extrusion of Expandable Polystyrene Beads Total Capital Investment	315
10.9	Extrusion of Expandable Polystyrene Beads Production Costs	316
10.10	Extrusion of Expandable Polystyrene Beads Effects of Various Hypothetical Cost Reduction Possibilities on Production Cost	317
10.11	Direct-Injection Extrusion of General Purpose Polystyrene (Foamed Sheet) Process Unit and Utilities Investment	324
10.12	Direct-Injection Extrusion of General Purpose Polystyrene (Foamed Sheet) Total Capital Investment	325
10.13	Direct-Injection Extrusion of General Purpose Polystyrene (Foamed Sheet) Production Costs	326
10.14	Direct-Injection Extrusion of General Purpose Polystyrene (Foamed Sheet) Effects of Various Hypothetical Cost Reduction Possibilities on Production Cost	327
11.1	Physical Properties of Polystyrene	333

TABLES

12.1	Published Observations on the Relationship of Viscosity and Molecular Weight of Polystyrene	345
12.2	Published Observations on the Effects of Solvent and Polymer Concentration on Viscosity	348
12.3	Published Observations of the Flow Behavior of Polystyrene	352
12.4	Published Thermodynamic Data for Polystyrene	355
12.5	Published Observations on the Relationships of Certain Thermodynamic Properties and Influencing Factors	356
12.6	Patents on Fire-Retarding Polystyrene	360
12.7	Patents of Antistatic Formulations for Polystyrene	362
