

Report No. 51A

REINFORCED PLASTICS

Supplement A

by WING SIEN FONG

October 1973

A private report by the

PROCESS ECONOMICS PROGRAM

STANFORD RESEARCH INSTITUTE

MENLO PARK, CALIFORNIA

CONTENTS

1	INTRODUCTION	1
2	SUMMARY	3
3	INDUSTRY STATUS	9
	Reinforced Plastics in the United States	9
	Reinforced Thermosets (RTS)	9
	Reinforced Thermoplastics (RTP)	16
	Transportation Market	21
	Building Market	27
	Pipe Market	28
	Reinforced Plastics in Australia	28
	Reinforced Plastics in Brazil	29
	Reinforced Plastics in Canada	29
	Reinforced Plastics in Japan	30
	Reinforced Plastics in Mexico	34
	Reinforced Plastics in the Soviet Union	34
	Reinforced Plastics in Western Europe	34
	Austria	38
	Belgium	38
	England	43
	France	44
	Germany (West)	45
	Italy	46
	Netherlands	47
	Portugal	48
	Scandinavia (Sweden, Norway, Denmark, and Finland)	48
	Spain	48
	Switzerland	50
4	REINFORCED THERMOSETS	51
	Resins	51
	Low Shrink, Low-Profile Resins and Unsaturated Polyesters	51
	Epoxy Resins	54
	Vinyl Ester Resins	59
	Polyvinyl Chloride Thermosets	59
	High Temperature Resistant Polymers	60

CONTENTS

4	Continued	
	Properties	61
	Fire Retardance	61
	Mechanical Properties	63
	Weatherability	65
	Chemical Resistance	65
	Processes	66
	Matched Metal Die Molding	66
	Cold Molding and Comoform®	67
	Injection Molding	68
	Pultrusion	71
	Filament Winding	71
	Centrifugal and Rotational Casting	78
	Lamination (of boards, panels, and sheets)	78
	Lay-ups and Other Processes	81
5	REINFORCED THERMOPLASTICS	91
	Composition and Properties	91
	Polyacetals	94
	Polyamides	97
	Polycarbonates	98
	Polyesters (Thermoplastics)	99
	Polyethylene and Polypropylene	102
	Polyphenylene Oxides	106
	Styrene Polymers	107
	Polyvinyl Chloride	107
	Processes	111
	Extrusion and Injection Molding	112
	Cold Forming and Stamping	119
	In-Situ Polymerization	121
	Miscellaneous Processes	122
	Glass Fiber-Reinforced Thermoplastic Concentrates	131
	Compounding and Blending of Glass Fibers and Thermoplastics	132
6	REINFORCEMENTS	135
	Glass	135
	Carbon and Graphite Fiber	143
	Other Reinforcements	146

CONTENTS

7	SHEET AND BULK MOLDING COMPOUNDS	151
	Introduction	151
	Compositions	151
	Review of Processes	151
	Process Description	161
	Process Discussion	165
	Cost Estimates	167
8	REINFORCED PLASTIC FOAMS	175
	Introduction	175
	Reinforced Thermoplastic Foams	175
	Reinforced Polyurethane Foams	176
	Review of Processes	176
	Reinforced Thermoplastic Foams	176
	Reinforced Polyurethane Foams	177
	Process Description	183
	Process Discussion	187
	Cost Estimates	189
	APPENDIX DESIGN AND COST BASIS	197
	CITED REFERENCES	203
	PATENT REFERENCES BY COMPANY	231

ILLUSTRATIONS

4.1	A Total System for Injection Molding of Glass-Reinforced Unsaturated Polyesters	70
7.1	Sheet Molding Compound Production	163
7.2	Sheet Molding Compound Production Effect of Operating Level and Number of Operators on Production Cost	172
7.3	Sheet Molding Compound Production Effect of SMC Machine Belt Speed on Production Cost	173
7.4	Sheet Molding Compound Production Effect of Operating Level and Plant Capacity on Production	174
8.1	Manufacture of Glass Fiber-Reinforced Polyurethane Foams	185
8.2	Manufacture of Glass Fiber-Reinforced Polyurethane Foams Effect of Labor Related Cost on Production Cost	194
8.3	Manufacture of Glass Fiber-Reinforced Polyurethane Foams Effect of Operating Level and Plant Capacity on Production Cost	195

TABLES

2.1	Consumption of Reinforced Plastics in the United States, Japan, and Western Europe	3
2.2	The Production of Sheet Molding Compounds and Fiber-Reinforced Polyurethane Foams Cost Estimates	5
3.1	Consumption Pattern of Reinforced Plastics in the United States	10
3.2	Consumption Pattern of Reinforced Thermosets in the United States	10
3.3	Producers of Sheet and Bulk Molding Compounds in the United States	12
3.4	Consumption Pattern of Gel Coats in the United States . . .	14
3.5	Consumption of Reinforced Thermoplastics in the United States	17
3.6	Some Merchant Producers of Reinforced Thermoplastics in the United States	19
3.7	Reinforced Plastics Consumption in Transportation	21
3.8	Some Reinforced Plastics Applications in 1971 Automobiles	23
3.9	Consumption of Reinforced Plastics in Japan	30
3.10	Consumption Patterns of Reinforced Plastics in Japan . . .	31
3.11	Some Reinforced Thermoplastics Producers in Japan	33
3.12	Some Reinforced Plastics Licensings in Japan	35
3.13	Consumption Pattern of Reinforced Plastics in Western Europe	36
3.14	Consumption of Sheet Molding Compounds in Western Europe	37
3.15	Some Merchant Producers of Reinforced Thermoplastics in Western Europe Including England	39
3.16	Production of Reinforced Plastics in Scandinavian Countries	49

TABLES

4.1	Reinforced Unsaturated Polyesters Some Recent Patents	55
4.2	Reinforced Epoxy Resins Some Recent Patents	57
4.3	High Temperature Resistant Reinforced Plastics Some Recent Patents	62
4.4	Pultrusion Process Some Recent Patents	72
4.5	Filament Wound Pipes and Tubes Some Recent Process Patents	74
4.6	Reinforced Thermoset Panels, Sheets, and Boards Some Recent Process Patents	79
4.7	Lay-ups, Vacuum Bag, and Other Processes Some Recent Patents	82
5.1	Miscellaneous Reinforced Thermoplastic Compositions Some Recent Patents	95
5.2	Reinforced (Thermoplastic) Polyesters Some Recent Patents	100
5.3	Reinforced Polyolefins Some Recent Patents	103
5.4	Reinforced Styrene Polymers Some Recent Patents	108
5.5	Reinforced Polyvinyl Chloride Some Recent Patents	109
5.6	Extrusion and Injection Molding of Reinforced Thermoplastics Some Recent Patents	113
5.7	In-Situ Polymerization Processes for Reinforced Thermoplastic Preparation Some Recent Patents	123
5.8	Miscellaneous Processes for Reinforced Thermoplastics Some Recent Patents	125

TABLES

5.9	Production of Cylindrically Shaped Reinforced Thermoplastics Some Recent Patents	127
5.10	Reinforced Thermoplastic Sheet Materials Some Recent Patents	128
6.1	Applications of Some Silane Coupling Agents	136
6.2	Coupling Agents and Other Treatments for Glass Fibers Used for Reinforced Thermoplastics Some Recent Patents	137
6.3	Coupling Agents and Other Treatments for Glass Fibers Used for Reinforced Thermosets Some Recent Patents	139
6.4	Some Patents on the Preparation of Carbon Fibrous Reinforcements	145
6.5	Synthetic Fibers for Reinforced Plastics Some Recent Patents	149
7.1	Sheet and Bulk Molding Compounds Some Recent Composition Patents	153
7.2	Sheet Molding Compound Production Major Process Equipment and Utilities Summary	163
7.3	Sheet Molding Compound Production Total Capital Investment	170
7.4	Sheet Molding Compound Production Total Operating Costs	171
8.1	Reinforced Thermoplastic Foams Some Recent Process Patents	179
8.2	Reinforced Polyurethane Foams Some Recent Process Patents	181
8.3	Manufacture of Glass Fiber-Reinforced Polyurethane Foams Major Process Equipment and Utilities Summary	185
8.4	Manufacture of Glass Fiber-Reinforced Polyurethane Foams Total Capital Investment	192

TABLES

8.5	Manufacture of Glass Fiber-Reinforced Polyurethane Foams Total Operating Costs	193
8.6	Manufacture of Glass Fiber-Reinforced Foams Effect of Number of Production Shift and Plant Capacity or Production Cost	196
