

Report No. 95

FERMENTATION PROCESSES

by WING S. FONG

April 1975

A private report by the

PROCESS ECONOMICS PROGRAM

STANFORD RESEARCH INSTITUTE

MENLO PARK, CALIFORNIA

CONTENTS

	GLOSSARY	xiii
1	INTRODUCTION	1
2	SUMMARY	3
	General Aspects	3
	Citric Acid	3
	Ethanol	4
	Gluconic Acid and Gluconates	4
	Itaconic Acid	5
	Process Economics	5
	Technical Aspects	5
3	FERMENTATION	11
	Industry Development	11
	Biochemistry	12
	Fermentation Process	13
	Microorganisms	14
	Substrate and Medium	15
	Preparation of the Inoculum	17
	Sterilization	17
	Foam Control	18
	Aeration and Agitation	22
	Acidity	24
	Temperature	24
	Fermenters (Submerged-Culture)	25
	Product Recovery	26
	Waste Disposal	26
	Continuous Fermentation	31
4	CITRIC ACID FERMENTATION	35
	Industry Status	35
	Biochemistry	36
	Review of Processes	42
	Microorganisms	43
	Fermentation Medium	57
	Temperature, Acidity, and Pressure	61
	Surface-Culture Process	62
	Submerged-Culture Process	64
	Product Recovery and Purification	67
	Fermentation By-Products	68
	Fermentation Wastes	69
	Process Description	69
	Process Discussion	77
	Cost Estimates	79

5	ETHANOL FERMENTATION	89
	Industry Status	89
	Biochemistry	93
	Review of Processes	99
	Microorganisms	99
	Carbohydrates	112
	Fermentation	112
	Fermentation of Sugars	117
	Fermentation of Starch	119
	Fermentation of Sulfite Waste Liquor	121
	Fermentation of Miscellaneous Materials	123
	Product Recovery and Purification	125
	Brewery Wastes	126
	Process Description	127
	Process Discussion	134
	Cost Estimates	135
6	GLUCONIC ACID AND GLUCONATES FERMENTATION	147
	Industry Status	147
	Biochemistry	149
	Review of Processes	152
	Process Description	155
	Process Discussion	159
	Cost Estimates	160
7	ITACONIC ACID FERMENTATION	167
	Industry Status	167
	Biochemistry	167
	Review of Processes	169
	Microorganisms	169
	Acidity	170
	Nutrients and Additives	171
	Sugar Content	172
	Surface-Culture Process	173
	Submerged-Culture Process	174
	Continuous Fermentation	176
	Product Recovery	176
	Fermentation By-Products	177
	Process Description	178
	Process Discussion	183
	Cost Estimates	184
	APPENDIX Design and Cost Bases	193
	CITED REFERENCES	195
	PATENT REFERENCES BY COMPANY	219

ILLUSTRATIONS

4.1	Citric Acid (Submerged-Culture) Fermentation	75
4.2	Citric Acid (Submerged-Culture) Fermentation Effects of Yield, Cost of Molasses, and Fermentation Cycle Time on Production Cost	85
4.3	Citric Acid (Submerged-Culture) Fermentation Effects of Fixed Capital, Labor Requirements, and Yield on Production Cost	86
4.4	Citric Acid (Submerged-Culture) Fermentation Effects of Operating Level and Plant Capacity on Production Cost	87
5.1	Ethanol Fermentation Pathway from Hexose	95
5.2	Tower Fermenter	118
5.3	Ethanol by Fermentation of Starches (Corn or Potatoes)	120
5.4	Ethanol by Continuous Fermentation of Sulfite Waste Liquor	122
5.5	Ethanol by Fermentation of Whey	124
5.6	Ethanol by Fermentation of Molasses	131
5.7	Ethanol by Fermentation of Molasses Effect of Molasses Cost on Product Cost	143
5.8	Ethanol by Fermentation of Molasses Effect of Distiller's Feed Credits on Production Cost . . .	144
5.9	Ethanol by Fermentation of Molasses Effect of Operating Level and Plant Capacity on Production Cost	145
6.1	Sodium Gluconate by Fermentation of Dextrose	157
6.2	Sodium Gluconate by Fermentation of Dextrose Effects of Dextrose Cost, Labor, and Capital Related Costs on Production Cost	165
6.3	Sodium Gluconate by Fermentation of Dextrose Effect of Operating Level and Plant Capacity on Production Cost	166

ILLUSTRATIONS

7.1	Itaconic Acid by Fermentation of Molasses	181
7.2	Itaconic Acid by Fermentation of Molasses Effects of Molasses Cost, Fermentation Cycle Time, and Sugar Concentration (in the Fermentation Medium) on Production Cost	191
7.3	Itaconic Acid by Fermentation of Molasses Effect of Operating Level and Plant Capacity on Production Cost	192

TABLES

2.1	Summary of Cost Estimates for Fermentation Processes for Citric Acid, Ethanol, Sodium Glutamate, and Itaconic Acid	6
2.2	Summary of Typical Fermentation Processes for Citric Acid, Ethanol, Sodium Glutamate, and Itaconic Acid	9
3.1	Defoaming Agents Patent Summary	20
3.2	Mechanical Foam Breakers Patent Summary	21
3.3	Aeration and Agitation Patent Summary	23
3.4	Fermenters Patent Summary	27
3.5	Continuous Fermentation Patent Summary	33
4.1	Major Producers of Citric Acid by Fermentation	37
4.2	Citric Acid Fermentation Patent Summary	45
4.3	Citric Acid (Submerged Culture) Fermentation Major Process Equipment and Utilities Summary	73
4.4	Citric Acid (Submerged-Culture) Fermentation Total Capital Investment	82
4.5	Citric Acid (Submerged-Culture) Fermentation Production Costs	83
5.1	Ethanol Production by Fermentation in the United States	91
5.2	Ethanol Production in Some European Countries--1971	93
5.3	Ethanol Fermentation Patent Summary	101
5.4	Average Consumption of Various Crops to Produce One Gallon of 95 Volume Percent Ethanol by Fermentation	113
5.5	Ethanol and By-Product Formation by Fermentation of Corn and Potatoes	121

TABLES

5.6	Ethanol by Fermentation of Molasses Major Process Equipment and Utilities Summary	130
5.7	Ethanol by Fermentation of Molasses Approximate Feedstock to the Various Fermentation Tanks	133
5.8	Ethanol by Fermentation of Molasses Total Capital Investment	139
5.9	Ethanol by Fermentation of Molasses Production Costs	141
6.1	Production and Sales of Gluconic Acid and Sodium Gluconate in the United States	148
6.2	Sodium Gluconate by Fermentation of Dextrose Major Process Equipment and Utilities Summary	157
6.3	Sodium Gluconate by Fermentation of Dextrose Total Capital Investment	162
6.4	Sodium Gluconate by Fermentation of Dextrose Production Costs	163
7.1	Itaconic Acid by Fermentation of Molasses Major Process Equipment and Utilities Summary	181
7.2	Itaconic Acid by Fermentation of Molasses Total Capital Investment	187
7.3	Itaconic Acid by Fermentation of Molasses Production Costs	189
