

Report No. 104

THERMOPLASTIC ELASTOMERS

by ROBERT H. SCHWAAR

with contributions by James J. L. Ma

November 1978

A private report by the

PROCESS ECONOMICS PROGRAM

STANFORD RESEARCH INSTITUTE

MENLO PARK, CALIFORNIA

CONTENTS

1	INTRODUCTION	1
2	SUMMARY	3
	General Aspects	3
	Economic Aspects	3
	Technical Aspects	5
	Styrenic Thermoplastic Elastomers	5
	Hydrogenated Styrenic Block Copolymers	7
	Blends of Rubber and Thermoplastics	8
	Thermoplastic Copolyester Elastomers	8
3	INDUSTRY STATUS	11
	Production	12
	Producers	13
	Prices	13
	Markets	13
4	PROPERTIES OF THERMOPLASTIC ELASTOMERS	19
5	STYRENIC BLOCK COPOLYMERS	25
	Chemistry	27
	Effect of Structure on Product Properties	33
	Review of Processes	34
	Initiators	42
	Solvent	42
	Raw Materials Purity	42
	Polymerization Procedures	43
	Reactors	43
	MW Distribution	44
	Additives	45
	Polymerization Monitoring	45
	Coupling Living Diblock Polymers	46
	Linear Triblock Copolymers	46
	Star-Block Copolymers	48
	Conversion of Polymer Solution to Dry Product	52
	Process Description	53
	Feed Purification	55
	Preparation of Coupled Block Copolymer	55
	Polymer Recovery and Finishing	56
	Conversion of Crumb to Pellets	57
	Solvent Recovery	58

CONTENTS

5	(Continued)		
	Process Discussion		64
	Feed Purification		64
	Polymerization and Coupling		64
	Additives		65
	Stripping and Coagulating		66
	Polymer Crumb Drying		66
	Solvent Recovery		67
	Final Processing		68
	Materials of Construction		68
	Waste Treatment		69
	Cost Estimates		71
	Capital Costs		71
	Production Costs		71
6	HYDROGENATED STYRENIC BLOCK COPOLYMERS		81
	Chemistry		81
	Review of Processes		82
	Control of Diene Polymer Configuration		88
	Hydrogenation Selectivity		90
	Hydrogenation Conditions		91
	Removal of Hydrogenation Catalyst		92
	Conversion of Polymer Solution to Dry Polymer Powder		93
	Process Description		94
	Purification of Monomer and Solvent Feeds		95
	Preparation of Coupled Block Copolymer		96
	Hydrogenation		99
	Coagulation of Polymer Cement		101
	Conversion of Crumb to Pellets		101
	Solvent Recovery		102
	Process Discussion		108
	Impurities in the Butadiene		108
	Reaction Temperature		108
	Diene Polymerization Control Agent		109
	Coupling Agent		109
	Catalyst Deactivation		109
	Hydrogen Consumption		110
	Catalyst Removal		111
	Polymer Recovery		111
	Waste Treatment		112
	Cost Estimates		114
	Capital Costs		114
	Production Costs		115

CONTENTS

7	BLENDS OF RUBBER AND THERMOPLASTICS	125
	Review of Processes	125
	Polyolefin Blends With Partial Curing	125
	Polyolefin Blends Without Partial Curing.	131
	Other Polyolefin Blends	131
	Process Description	132
	Mixing Section Operations	132
	Product Finishing Section Operation	134
	Extruding and Pelletizing	134
	Pellet Dewatering and Drying.	134
	Pellet Blending	135
	Product Packaging	135
	Process Discussion.	139
	Plant Capacity.	139
	Design Basis.	139
	Batch Versus Continuous Mixing.	140
	Extruding and Pelletizing	140
	Additives	141
	Materials of Construction	141
	Cost Estimates.	143
	Capital Costs	143
	Production Costs.	143
8	THERMOPLASTIC COPOLYESTER ELASTOMERS.	151
	Chemistry	151
	Reactions	152
	Kinetics.	156
	Review of Processes	157
	Development	157
	Catalysts	166
	Additives	167
	Processing Sequence	167
	Ester Interchange and Polycondensation.	168
	Recovery of Methanol and 1,4-Butanediol	169
	Final Polymerization in Solid Phase	169
	Continuous Polymerization	170
	Process Description	170
	Polymerization Section.	171
	Charging.	171
	Catalyst Preparation.	172
	Ester Interchange and Polycondensation.	173
	Solvent Recovery Section.	174
	Product Finishing Section	175

CONTENTS

8	(Continued)	
	Process Discussion.	182
	Plant Capacity.	182
	Design Basis.	182
	Raw Materials	183
	Materials of Construction	184
	Cost Estimates.	185
	Capital Costs	185
	Production Costs.	185
9	OTHER THERMOPLASTIC ELASTOMERS.	195
	Modified EPDM	195
	Modified Polybutadiene.	195
	Propylene-Hexene-1 Random Copolymer	196
	Other Olefin Copolymers	197
	Modification of Thermoplastics.	197
	Ionic Thermoplastic Elastomers.	197
	Polyimidothioether-Polysulfide Block Copolymers	198
	Other Sulfur-Containing Block Copolymers.	199
	Thiourea Copolymers	199
	Silicone-Based Thermoplastic Elastomers	199
	APPENDIX A DESIGN AND COST BASES.	201
	APPENDIX B RAW MATERIALS SPECIFICATIONS	205
	CITED REFERENCES	215
	PATENT REFERENCES BY COMPANY	225

4.1	Hardness of Thermoplastic Elastomers, Rubbers and Plastics	22
4.2	Flexural Elastic Modulus of Thermoplastic Elastomers, Rubbers, and Plastics.	23
5.1	Diagrammatic Representation of a Linear Styrene-Diene Triblock Thermoplastic Elastomer	26
5.2	Effect of Structure of Block Copolymers on Solution Viscosity	50
5.3	Star-Block Butadiene-Styrene Copolymer Process Flow Diagram	228
5.4	Star-Block Butadiene-Styrene Copolymer Effect of Plant Capacity on Total Fixed Capital.	78
5.5	Star-Block Butadiene-Styrene Copolymer Effect of Operating Level and Plant Capacity on Production Cost.	79
5.6	Star-Block Butadiene-Styrene Copolymer Effect of Butadiene and Styrene Prices on Total Production Cost.	80
6.1	Hydrogenated SBS Copolymer Production Process Flow Diagram	234
6.2	Hydrogenated SBS Copolymer Production Effect of Plant Capacity on Total Fixed Capital.	120
6.3	Hydrogenated SBS Copolymer Production Effect of Operating Level and Plant Capacity on Production Cost.	121
6.4	Hydrogenated SBS Copolymer Production Effect of Butadiene and Styrene Prices on Total Production Cost.	124
7.1	Blends of Rubber and Thermoplastics Process Flow Diagram	242
7.2	Blends of Rubber and Thermoplastics Effect of Polypropylene and Peroxide Contents on Hardness.	142
7.3	Blends of Rubber and Thermoplastics Effect of Plant Capacity on Total Fixed Capital.	146

ILLUSTRATIONS

7.4	Blends of Rubber and Thermoplastics Effect of Operating Level and Plant Capacity on Production Cost.	149
7.5	Blends of Rubber and Thermoplastics Effect of Raw Material Costs on Total Production Cost.	150
8.1	Thermoplastic Copolyester Elastomers Effect of Time and Temperature on Inherent Viscosity of Melt	155
8.2	Thermoplastic Copolyester Elastomers Process Flow Diagram	244
8.3	Thermoplastic Copolyester Elastomers Effect of Plant Capacity on Total Fixed Capital.	188
8.4	Thermoplastic Copolyester Elastomers Effect of Operating Level and Plant Cost on Production Cost.	192
8.5	Thermoplastic Copolyester Elastomers Effect of Raw Material Costs on Total Production Cost.	193

TABLES

2.1	Summary of Cost Estimates for Thermoplastic Elastomers.	4
3.1	Producers of Thermoplastic Elastomers (Other than Polyurethanes)	14
3.2	End-Use Applications of Thermoplastic Elastomers (United States, 1973)	15
4.1	Properties of Thermoplastic Elastomer Gums and Compounds	21
5.1	Styrenic Block Copolymers Patent Summary.	36
5.2	Coupling Agents for Lithium-Initiated Block Copolymers Patent Summary.	40
5.3	Properties of Linear- and Star-Block Copolymers	49
5.4	Star-Block Styrene-Butadiene Copolymer Design Bases and Assumptions.	54
5.5	Star-Block Styrene-Butadiene Copolymer Major Equipment and Utilities Summary	59
5.6	Star-Block Styrene-Butadiene Copolymer Stream Flows.	62
5.7	Star-Block Styrene-Butadiene Copolymer Summary of Waste Products	70
5.8	Star-Block Styrene-Butadiene Copolymer Production Major Capital Equipment Cost.	73
5.9	Star-Block Styrene-Butadiene Copolymer Total Capital Investment.	74
5.10	Star-Block Styrene-Butadiene Copolymer Production Costs.	76
6.1	Hydrogenated Styrenic Block Copolymers Patent Summary.	83
6.2	Hydrogenated SBS Copolymer Design Bases and Assumptions.	96
6.3	Hydrogenated SBS Copolymer Production Typical Batch Cycles.	97
6.4	Hydrogenated SBS Copolymer Production Major Equipment and Utilities Summary	103

TABLES

6.5	Hydrogenated SBS Copolymer Production Stream Flows.	106
6.6	Hydrogenated SBS Copolymer Production Summary of Waste Products	113
6.7	Hydrogenated SBS Copolymer Production Major Capital Equipment Cost.	117
6.8	Hydrogenated SBS Copolymer Production Total Capital Investment.	118
6.9	Hydrogenated SBS Copolymer Production Production Costs.	122
7.1	Blends of Rubber and Thermoplastics Patent Summary.	126
7.2	Blends of Rubber and Thermoplastics Major Equipment and Utilities Summary	136
7.3	Blends of Rubber and Thermoplastics Stream Flows Based on Durometer 77A Blend	138
7.4	Blends of Rubber and Thermoplastics Total Capital Investment.	145
7.5	Blends of Rubber and Thermoplastics Major Capital Equipment Cost.	147
7.6	Blends of Rubber and Thermoplastics Production Cost for Durometer 77A Blend	148
8.1	Thermoplastic Copolyester Elastomers Patent Summary.	158
8.2	Thermoplastic Copolyester Elastomers Design Bases and Assumptions.	172
8.3	Thermoplastic Copolyester Elastomers Major Equipment and Utilities Summary	177
8.4	Thermoplastic Copolyester Elastomers Stream Flows for 55D Copolymer.	180
8.5	Thermoplastic Copolyester Elastomers Total Capital Investment.	187
8.6	Thermoplastic Copolyester Elastomers Major Capital Equipment Cost.	189
8.7	Thermoplastic Copolyester Elastomers Production Costs for Durometer 55D Copolymer.	190

TABLES

B.1	Butadiene Specifications (Commercial Grade)	207
B.2	Styrene Specifications.	208
B.3	Dimethyl Terephthalate Properties	209
B.4	Polytetramethylene Ether Glycol Specifications.	210
B.5	1,4-Butanediol Properties	211
B.6	Agerite White [®] Antioxidant Properties	212
B.7	Tetrabutyl Titanate Properties and Specifications	213
