Surfactants Report Suite

Do you need to gain insight into key chemicals used in surfactant markets and products?

Do you need to know how key producers and users of surfactant markets and products are evolving?

Do you need to be aware of important trends and issues driving the development of the related industries?

Widespread use of surface active agents, and chemicals from household and cosmetics products to industrial processes and products, has prompted suppliers and users to develop highly integrated business relationships across the surfactants value chain. Surfactant markets and products are constantly evolving, providing opportunities and challenges. The Surfactants Report Suite will enable you to stay on top of changes within this market and related industries.

IHS Markit can provide your company with the business intelligence expertise on drivers, industry dynamics and key players by providing a comprehensive overview that supports your strategic decision making process.

IHS Markit is a world leader in critical information, analytics and expertise. Publishing continuously since 1950, our chemical solutions provide timely information and market analysis of the international chemical industry and its major products.

The Surfactants Reports Suite is available as a subscription with inquiry privileges.

CEH (Chemical Economics Handbook) reports include:

- Global summary; regional coverage
- Producers with annual capacities and plant sites
- Production figures and trends
- Consumption and forecasts by end use application
- Prices and price trends
- Trade – imports and exports

SCUP (Specialty Chemicals Update Program) reports include:

- Industry structure, operating characteristics and regulatory environment
- Products, functions and markets
- Cost structure / profitability
- Technology changes and emerging substitution practices
- Quantitative market analysis and forecasts
